CENTS.

- 25 434 1793 Reverse, chain ; very poor indeed.
 435 1793 No. 5, rev., C. : (see Levick's plate and Crosby's description, American Journal of Numismatics, April 1869.) On the obv. the most prominent parts of the hair are just touched, and on the rev. the lower part of the wreath is not sharply struck ; of dark chocolate color, and in beautiful condition, not more worn than coins frequently are by cabinet friction. I think the piece has never been in circulation ; bars and vines on the edge ; *extremely rare so fine*. See plate.
 17.00 436 1793 7, rev. E. ; Head of Liberty ; rev., wreath, edge plain. Crosby mentions a variety, rev., F. with plain edge as of very rare occurrence. I am not aware that this variety with plain edge has been observed : both obv. and rev. and very much worn ; the obv. is better than the rev., all parts being distinctly legible ; *very rare*.

- 50 437 1793 Liberty cap ; perfect die, lettered edge ; obv., very good ; rev., nearly as good ; *rare*. See plate.
 30 438 1793 Electrotpe, 7 rev. F. ; very fine.
 30 439 1793 Duplicate of the last, equally fine.
 20 440 1793 Altered from 1798.

The difficulty of determining the variety of the 1794 cents by Maris's work, without a full set for comparison, is so great that I have not attempted it. The eight following are nearly all distinct varieties.

- 170 441 1794 Fine sharp impression ; only a little circulated.
 35 442 1794 Good, but of dark color.
 31 443 1794 Somewhat worn, but very good.
 35 444 1794 Dark color ; large planchet, better than the last.
 40 445 1794 Smaller planchet ; very good.
 20 446 1794 Dark color, a little corroded ; obv., good ; rev. poor.
 20 447 1794 Small head ; date, bust, &c., distinct but poor.
 20 448 1794 Better than the last ; obv. and rev. blemished.
 20 449 1795 Thin planchet ; poor.
 30 450 1796 Fillet head ; fair, scarce.
 10 451 1797 Barely fair.
 5 452 1798 Fair, dark color.
 50 453 1798 Obverse fine ; rev., the planchet is rough ; not much circulated, scarce in this condition.
 510 454 1799 Very good for this rarest date ; every portion of the obverse is plain, except the extreme bottom of the date, and that is visible ; the reverse considerably worn ; guaranteed.
 30 455 1799 Electrotpe ; very good.
 10 456 1801 Fair.
 50 457 1802 Dark color ; not much circulated.

HARD TIMES TOKENS.

Of these tokens, a good description, written by Mr. J. N. T. Levick, may be found in the *American Journal of Numismatics*, and they will also be found described with sufficient accuracy for easy identification in Mr. J. W. Haseltine's Coin Sale Catalogue of November, 1881.

Unfortunately, the *Journal of Numismatics* is possessed by comparatively few coin collectors, but Mr. Haseltine's Catalogue is in the hands of many, and references are made by numbers to his descriptions.

The series, marking as it does an important period in the financial history of the United States, is very interesting, and heretofore has not

attracted the degree of attention that it merits. Many persons, whose memory extends back to the period, especially if residents of New England, will remember that these Jackson Cents, as they were then called, formed no inconsiderable portion of the currency of the time. They, as well as the store cards, passed freely, and, owing to the dearth of small change, were really a great convenience to the trading community.

As to the origin of these pieces, I am not aware that anything has been written, and it may be worth while to record some facts. In conversation, not long since, with an aged gentleman who still survives, he informed me that he was at the time of their issue a member of a company which, reorganized, became the "Seoville Manufacturing Company" of Waterbury, Connecticut; that the company, then in its infancy, found profitable employment in the manufacture of these tokens, of which they made hundreds of thousands, comprising most, if not all, of the varieties now known.

When the business had gone on for years and grown into large proportions, the United States authorities stepped in and either prosecuted the makers or threatened prosecution, but suspended proceedings in consideration of an agreement that the manufacture should be discontinued and all existing dies destroyed. This agreement was faithfully carried out and every die was defaced.

The company re-formed, and its successors, also made most of the private store cards of old red cent size up to quite a recent period. I was informed by the engraver of the establishment that all the old dies — several hundreds in number — were destroyed by the fire which so seriously damaged the works about a year ago.

As few, if any of these pieces were ever pictured, I have thought it advisable to illustrate them in this catalogue, an edition of which, fifty in number, has been printed, with two heliotype plates, one of which is mainly devoted to this series. Copies of the catalogue with illustrations, will be sent to order at 50 cents each; the same, printed on heavy tinted paper and priced, will be sent after the sale at \$1 each.

BOOKS, SALE CATALOGUES, ETC.

The following collection of Catalogues comprises nearly all the important sales that have taken place for several years past, also a great many issued fifteen or twenty years ago; as the number is so great it is not thought best to make a separate lot of each one; they are accordingly grouped in convenient sized lots. Many are priced, and to a few the names of purchasers are added; the letter p. stands for priced: they are with scarcely an exception in good condition and nearly all are fine.

STONE IMPELEMENTS AND RELICS.

SCANDINAVIA.

The following choice specimens, illustrating the Stone Age in the North of Europe, are selected from the collection of the late J. Grier Ralston. These objects are, without exception, rare, and their value is greatly enhanced by the fact that the Danish Government asserts the right for its own museums to all such objects found in the country. It will of course be understood that the word chipped indicates not an accidental injury, but the manner of making, as distinguished from polished.

NOTICE.

Several Sales are in a state of forwardness, amongst others the following :

The collection of Coins, Medals and Numismatic Books formed by the late Dr. Winslow Lewis, of Boston. A leading feature in this cabinet is the great number and variety of Italian Medals especially in the Papal series. The Numismatic Library comprises between one hundred and two hundred volumes, many of rarity and value.

From stock and collections now on hand, it is probable that sale No. 47 will be made, and No. 48 will very likely be the Archaeological Collection of Prof. J. Grier Ralston, late of Norristown, Penn. This collection in addition to most of the varieties of stone implements found on the Western Continent, including Pipes, Banner Stones, Amulets, Spades, Discoidals, etc., is also very full in relics of the Stone Age in Scandinavia ; in it are many rare examples of the beautiful flint objects found only in the East. Daggers, Spear-heads, Arrow-points, Leaf-shaped and Semi-lunar Knives, Celts, Gouges, etc., also representative specimens of the Granite objects from the same location, Celts, Axes and perforated Hammers. Also samples of Carib and South Sea Island work.

The magnificent collection of American stone implements formed by Mr. Norman Spang, of Etna, Penn., has been purchased and will as soon as practicable, be catalogued for sale, and offered probably in September. The Spang collection contains upwards of 6000 objects, a few as follows: 200 Double Convex Disks, 25 Double Concave Discoidal Stones, 45 Pipes, 50 unclassified objects, many of which have never been described, etc., etc.

Of this Catalogue, No. 46, I have as usual printed an edition of 50 copies on thick paper, illustrated with two fine Heliotype Plates. Copies will be priced after the sale and sent to order at \$1.25 each. Orders will be filled in the order of their receipt: an edition of 50 copies with the plates has also been printed, copies will be sent to order for 50 cents each. The plates referred to will be of special interest as they furnish the only illustrations of the series of Hard-times Tokens.

SPECIAL NOTICE.

Collectors who favor me with orders, are respectfully requested to send them at as early a date as possible, that I may have their orders transferred to my book before leaving home. The number sent to me too late to enter at home is often so great as to require nearly all my time on the days of sale.

All letters for me from April 17, to 21, should be addressed, care of Messrs. Bangs & Co., 739 and 741 Broadway, New York City.
